Re: Green Beetle Quarry Right-of-Way Amended

Dear Mr. Johnson:

Enclosed are two copies of an amended right-of-way (ROW) offer (BLM Form 2800-14) for the Green Beetle landscape rock quarry, access road, waste rock and processing areas, on BLM administered public surface in the Rosebud area of western Box Elder County, Utah, serial number U-81125. This right-of-way amendment is for the purpose of permitting an additional 2.5 acre quarry and access road for a previously disturbed and unreclaimed area on top of the hill east of your processing area. This grant retains the original termination date of December 31, 2008.

Please review the offer to see that you agree with all conditions and stipulations stated, have **both** copies of the grant signed in the space provided, and return **both** to the address shown above. Upon receipt of the signed grant offer on BLM Form 2800-14, the Bureau of Land Management (BLM) will execute the grant and return one copy to you for your records.

We recognize and acknowledge your existing letter of credit through Travelers Casualty and Surety Company of America in the amount of \$14,300 held in favor of United States of America and the State of Utah, Division of Oil Gas and Mining for this operation. Prior to issuance of this amended grant, we must receive written confirmation from the State of Utah, Division of Oil, Gas and Mining that you have provided additional bonding in the amount of \$4,900 to cover the additional area to be disturbed. This bond amount should be maintained in the stated amount for the entire term of this right-of-way grant. If at any time we receive notice that this bond is to be canceled, you will be required to obtain a replacement bond for the same amount prior to the cancellation of this existing bond.

This ROW permit will require the payment of additional rental in the amount of \$12.51 accordance with the regulations found in 43 CFR 2806 until termination of the grant on December 31, 2008.
